Members of the Community and the Board of Education
Freeport School District No. 145

Dear Members of the Community and the Board:

The Comprehensive Annual Financial Report (CAFR) for Freeport School District No. 145 (the District) for the fiscal year ending June 30, 2019, is hereby submitted. Submittal of this report complies with the requirements of the Illinois School Code. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the District. We believe the data, as presented, is accurate in all material aspects and represents the financial position and results of operations of the District as shown by the disclosure of all financial activity of its various funds, and that all disclosures necessary for public understanding of the District's financial status have been incorporated within this report.

Management's Discussion and Analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complements this letter for transmittal and should be read in conjunction with it.

This CAFR is presented in three sections: introductory, financial, and statistical. The introductory section includes this transmittal letter, the district's organizational chart, and a list of principal officers and elected officials. The financial section includes the independent auditor's report on financial statements and pertinent schedules. The statistical section includes historical, multi-year financial, and demographic information pertinent to the district's financial condition.

The District is required to undergo an annual single audit in conformity with the provisions of the U.S. Office of Management and Budget's (OMB) Title 2 CFR Part 200, "*Audits of States, Local Governments, and Non-Profit Organizations.*" Information related to this single audit, including a schedule of federal financial assistance and the independent auditor's reports on the internal control structure and on compliance with applicable laws and regulations, is included under separate cover.

The financial reporting entity of the District is to include the District, as the primary government, organizations for which the District is financially accountable, and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading. Based on these criteria, there are no other organizations whose financial statements should be combined with the general purpose financial statements of the District. Additionally, based on consideration of oversight responsibility, scope of public service, and special financing relationships, the District is an independent entity, and not included as a component unit of any other reporting entity.

F r e e p o r t S c h o o l D i s t r i c t

History of the District

In 1850, the citizens of Freeport voted in a referendum election to tax to build Union School. The vote passed 125 to 9. In 1852, the first public school, Union School, was built on South Galena Street in Freeport and opened for classes in October. The first public high school was on the second floor and the middle school was on the first floor (grammar school classes were conducted in the basements of the Presbyterian, Evangelical, and Methodist churches). In 1856, the first formal system of graded instruction was put into place in the county by the creation of a school system supported by general taxation and the election of a three-commissioner board of school commissioners. The commissioners were seated in 1857, so 1857 is considered the formal creation of Freeport School District.

Several schools were built in subsequent years. The high school principal was considered the supervisor of the school system. In 1867, the board of commissioners determined that such a supervisory system was not adequate to meet the demands of a rapidly growing school system and they elected Mr. G. G. Alvord as the first superintendent.

In 1919, a special election was held approving the purchase of the 25.19-acre tract of land that was the site of Stephenson County's first county fair in 1856. The site had also served in 1861 as Camp Scott, a training site for local men mobilized for service in the Civil War. On this site the present Freeport High School was built in 1925-26 and opened for classes in September 1926. This building has had several additions, including in 1924, 1947-48, 1962-64, and 1996.

Since 1919, several buildings have opened and closed. The current school buildings and administrative offices that are in use today comprise 787,283 square feet of building space, situated on 192.76 acres. Along with Freeport High School, the current list of schools includes the following. Empire Elementary was built in 1951, with additions in 1956 and 1963. Freeport Middle School (formerly Freeport Junior High School) was built in 1952, with additions in 1957 and 1963. Freeport Middle School is also the location of the 997-seat Jeanette Lloyd Theater. Taylor Park Elementary was built in 1952, with additions in 1957 and 1965. Blackhawk Elementary was built in 1954, with an addition in 1965. Lincoln Douglas Elementary was built in 1958, with an addition in 1965. The first Center Elementary was built in 1905. The current Center Elementary was built in 1968 and underwent renovations in 1994 to convert it from an open-concept elementary school. Carl Sandburg Middle School was built in 1969. It also underwent renovation to convert it from an open-concept school in 1995. Jones Farrar IB World School was built by Highland Community College as a vocational education building in 1975. Freeport School District bought the building in 1991. It served as a temporary site for Center and Carl Sandburg during their respective renovations, then became the District's Early Learning Center. It became an IB magnet school in 2010.

F S D 1 4 5

F r e e p o r t S c h o o l D i s t r i c t

The old maintenance shop, built in 1947 and the attached bus garage, built in 1966, were converted into the Freeport Alternative High School and vocational classrooms in 2003. The Banks-Bergagna Education Center was the education building for First Presbyterian Church. Built in 1956, the building was purchased by the District in 2007. The central administration building was built as the Farm Credit Services building in 1972 and purchased by the District in 1988. Finally, in 2003 the District purchased the old Zimmerman car dealership facility and converted it into the maintenance shop and offices, transportation offices and bus maintenance garage, and the District's warehouse.

District Composition and Communities Served

The District serves grades preschool through grade 12. The District maintains eleven school buildings: an elementary International Baccalaureate magnet school and five additional elementary schools (Preschool – 4th grade), one upper elementary school (5th – 6th grade), one middle school (7th – 8th grade), one high school (9th – 12th grade), one alternative high school, and a smaller transitional education facility. Each institution has full State of Illinois recognition and accreditation.

Enrollment includes 4,049 students from the City of Freeport, the Villages of Cedarville and Ridott, and the unincorporated areas of central Stephenson County in between these communities. The district covers 99 square miles located entirely in Stephenson County, IL and is located approximately 114 miles northwest of Chicago, IL, 65 miles southwest of Madison, WI, and approximately 30 miles west of Rockford, Illinois. The District serves 55% of the preschool through grade 12 students in Stephenson County.

Governance

The Board of Education consists of seven elected officials from our community. Freeport School District 145's current Board is comprised of:

Mrs. Janice Crutchfield	First elected 2009	Term expires 2021	President
Mr. George McCarty	First elected 2017	Term expires 2021	Vice President
Mrs. Abbe Hayner	First elected 2011	Term expires 2019	
Mr. Peter Norman	First elected 2015	Term expires 2019	
Mr. Jack Sosnowski	First elected 2015	Term expires 2019	
Ms. Shirley Bradley	First elected 2017	Term expires 2021	
Rev. Antwon Funches	First appointed 2018	Term expires 2019	

F S D 1 4 5

F r e e p o r t S c h o o l D i s t r i c t

Economic Condition and Outlook

The District's predominately residential tax base is expected to remain pressured in the near term but continue signs of moderate valuation increases. The District's \$877 million tax base has ceased its depreciation, after a decline by a cumulative 15.7% from its peak in 2008. Based on discussions with the county assessor, District officials project that valuations will continue to show stabilization and slight increases of the tax base in 2018 and moving forward.

We expect the District's financial operations will continue to improve based on recent expenditure reductions. The district posted General Fund (Education + Operations & Maintenance + Transportation Funds) moderate operating surplus in 2018, for the third year in a row and for the third time in several years. The District has more aggressively controlled personnel expenditures over the past several years, primarily by reducing staff through attrition. Year-end figures indicate these cuts have resulted in finishing the last four fiscal years in the black.

The District's debt burden will likely remain manageable. The District carries a moderate direct debt burden of 2.3% of full value. All of the District's outstanding debt is secured by its debt service extension base (DSEB), a dedicated levy that is unlimited as to rate but limited in amount by the District's annual DSEB (\$2.6 million). All of the District's outstanding debt is fixed rate. Principal amortization is below average with 61.2% of GO debt retired within ten years.

Currently, the District has a relatively modest pension burden given the state is primarily responsible for funding teacher pensions. District teachers participate in the Teachers Retirement System (TRS) of Illinois, a multi-employer defined benefit pension plan, and non-teaching District employees participate in the Illinois Municipal Retirement Fund (IMRF), an agent multi-employer plan. As of June 30, 2019, TRS had a low reported funded ratio of 39.6%, while as of December 31, 2018, IMRF had a stronger funded ratio of 90%. The state is primarily responsible for funding TRS through payments made on behalf of school districts.

Revenues are comprised of local property taxes, state aid, and federal funding with the mix of the three revenue streams varying by each district. While the state constitution creates a foundational level for education funding, the state has reduced its annual allocation for state aid funding in recent years though there was a slight increase budgeted for fiscal 2018. Local property taxes have historically been largely predictable for Illinois school districts. Property taxes comprised 43.2% of fiscal 2018 Operating Fund revenues, and the district benefits from a nearly 100% collection rate.

Management has been proactive in making budget cuts in order to restore balanced operations.

The District received both the ASBO Certificate of Excellence in Financial Reporting and the GFOA Certificate of Achievement for Excellence in Financial Reporting for its 2017 CAFR.

F S D 1 4 5

F r e e p o r t S c h o o l D i s t r i c t

Financial Policies / Budget Schedule

Financial policies regarding the acquisition, acknowledgement, investment, and expenditure of all District funds have been established by the Board of Education. A board finance committee meets on a regular basis to devote additional time and scrutiny of all financial operations on a policy and oversight level. The Board of Education follows a budget planning schedule that extends from October through the following September of each fiscal year and complies with all Illinois statutory requirements including, but not limited to, budgeting, levying, truth-in-taxation, and proper and complete auditing of district accounts.

Basis of Accounting and Reporting / Independent Audit

The District reports the government-wide financial statements on the accrual basis of accounting, and the fund financial statements are prepared on the modified accrual basis. Notes to financial statements expand upon the basis of accounting used by the District as well as other accounting practices and procedures. All district funds are included in this report and have been audited by Wipfli of Rockford, IL, who has issued an unmodified (clean) opinion on the Freeport School District 145's financial statements for the year ended June 30, 2019. The independent auditor's report is located at the front of the financial section of this report. The financial statements have been prepared in accordance with the standards set forth by the Governmental Accounting Standards Board (GASB).

Financial Management and Internal Controls

Management of the District is responsible for establishing and maintaining a system of internal control designed to ensure that the assets of the District are protected from loss, theft, or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. Internal control is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived, and (2) the valuation of costs and benefits requires estimates and judgments by management.

Tests are conducted by the District's independent auditors to determine the adequacy of internal control, including that portion related to federal financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations.

FSD 145

Freeport School District

Budgetary Controls

Budgetary control is maintained at line-item levels by the buildings for their expenditures and built up into program and/or cost centers before being combined to form totals by fund. All actual activity compared to budget is reported to the District's management on a monthly basis. Reports of actual activity to budget are reported to the Board of Education monthly. The complete budget of the District is found on its website: www.fsd145.org.

Cash Management

The District invests up to 100 percent of available cash, timing investment maturities to actual cash needs. In addition, all checking accounts are of interest-bearing types. Investments are maintained in certificates of deposit, bank repurchase agreements, U.S. Treasury obligations, General Obligation Bonds, and commercial paper. Investments in prime commercial paper are made in small amounts in short-term money market accounts that are maintained as AAA ratings and monitored by PMA Financial Network on a weekly basis. There is minimal risk for our District in this area and within the restrictions allowed by the Illinois School Code. The District maintains investment relationships with several major local and Chicago area banks, two state-wide investment pools, and one nation-wide money manager.

Closing Statement

It is our belief that this Comprehensive Annual Financial Report will provide the District's management, outside investors, and local citizens with a meaningful financial presentation. We hope that all readers of this Report will obtain a clear and concise understanding of the District's financial condition as of June 30, 2019. We extend our appreciation to the members of the Board of Education for their interest and support in planning and conducting the financial operations of the District in a professional and fiscally responsible manner.

Respectfully submitted,

Dr. Michael Schiffman
Superintendent of Schools

Dr. Patrick McDermott, SFO

Board of Education
Freeport School District No. 145
Freeport, Illinois 61032

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Freeport School District No. 145, Illinois, (the "District") as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Freeport School District No. 145, Illinois, as of June 30, 2019, and the respective changes in financial position, and where applicable, cash flows thereof, for the year then ended in accordance with accounting principles generally accepted in the United States.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States require that the management discussion and analysis and required supplementary information on pages 4 through 10 and 56 through 65 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section, other supplementary information, and statistical section are presented for purposes of additional analysis and are not a required part of the financial statements. The other supplementary information as listed in the table of contents is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States. In our opinion, the other supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated January 27, 2020, in the regulatory report issued in accordance with the financial reporting provisions of the Illinois State Board of Education, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Management Discussion and Analysis

Freeport School District No. 145

Management Discussion and Analysis

As management of Freeport School District No. 145 (the "District"), we offer the readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the year ended June 30, 2019.

The MD&A is provided at the beginning of the report to provide an overview of the District's financial position at June 30, 2019 and the results of operations for the year. This summary should not be taken as a replacement for the audit report, which consists of the basic financial statements, notes to the financial statements, required and other supplementary information.

FINANCIAL HIGHLIGHTS

The District's financial situation continues to struggle like most school Districts in Illinois. Cuts in state aid and continuing delays in state funding have had the most dramatic impact on the District. Investment earnings continue to be low due to the continued low investment rates.

The liabilities and deferred inflows of the District exceeded its assets and deferred outflows at the end of the year by (\$15.7) million (net position).

The District's net position increased by \$1.1 million for the year.

The General Fund - Educational and Working Cash Funds balance decreased by \$1.1 million from the prior year to a total of \$6.6 million.

At the end of the year, the aggregate fund balances for the District's governmental funds (Educational, Operations and Maintenance, Working Cash, Transportation, Retirement/Social Security, Tort, Debt Service, Capital Project, and Fire Prevention and Safety), was \$31.9 million or 44% of the total expenditures of these governmental funds, including state on behalf payments.

USING THIS FINANCIAL REPORT

The financial section of this annual report consists of four parts - Independent Auditor's Reports, required supplementary information which includes the MD&A (this section), the basic financial statements, and other supplementary information. The basic financial statements include two kinds of statements that present different views of the District.

Government -Wide Financial Statements

The first two statements are government-wide financial statements that provide both short term and long term information about the District's overall financial status, similar to a private sector business. In the government-wide financial statements the District's activities are shown in one category - governmental activities. The District's basic services are instruction, administration and building maintenance. These activities are largely financed with property taxes and state grants.

Freeport School District No. 145

Management Discussion and Analysis

USING THIS FINANCIAL REPORT (continued)

Government -Wide Financial Statements (continued)

The statement of net position presents information on all of the District's assets/deferred outflows and liabilities/deferred inflows, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating. To assess the overall health of the District you need to consider additional non-financial factors such as the condition of the District's buildings and facilities.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event occurs, regardless of the timing of cash flows. Thus revenues and expenses are reported in this statement for some items that will only result in cash flows in the next fiscal period.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds - not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs. Some funds are required by state law, while others are established to control and manage money for particular purposes or to show that the District is properly using certain revenues.

Because the focus of the governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for each. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate the comparison between governmental funds and governmental activities.

The District maintains eight individual governmental funds. The Educational has a sub-fund Working Cash which is considered part of the General Fund of the District and is combined accordingly with the Education Fund. Individual fund information is presented in separate columns in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and the changes in fund balances for all the other funds. These funds are all considered major funds of the District. More detail of the individual revenues and expenditures for these funds are presented in the other supplementary information section of this report.

The District adopts annual budgets for all the governmental funds. A budgetary comparison statement has been provided for the general and special revenue funds only, which is in compliance with GASB Statement No. 34.

Proprietary Fund - The District maintains one proprietary fund. Proprietary funds are reported in the same way as the government-wide financial statements. Internal Service Funds are a type of proprietary fund and provide service to other funds in the District. The District's internal service fund accounts for the medical and dental benefits for District employees.

Freeport School District No. 145

Management Discussion and Analysis

USING THIS FINANCIAL REPORT (continued)

Fund Financial Statements (continued)

Fiduciary Funds - The District is the trustee, or fiduciary, for assets that belong to others or are designated to be used for a specific purpose with the principal left intact. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purpose and by those to whom the assets belong. The District's fiduciary activities are reported in the statement of fiduciary assets and liabilities. These activities are excluded from the government-wide financial statements because the District cannot use these assets to finance its operations.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

The District's net position was (\$15.7) million at June 30, 2019. Of this amount, (\$34.2) million was unrestricted. Restricted net position is reported separately to show the limits from legislation, or accounting principles that limit the District's ability to use that net position for day to day operations. The following analysis focuses on the net position and changes in net position of the District's governmental activities.

Net Position Governmental Activities June 30 (In Millions)		
	2019	2018
Current assets	\$45.6	\$45.5
Other assets	-	1.9
Capital assets	9.3	10.1
Total assets	54.9	57.5
Deferred outflows of resources	20.1	18.9
Current liabilities	5.5	4.9
Long term liabilities	58.5	60.0
Total liabilities	64.0	64.9
Deferred inflows of resources	26.7	28.3
Net position		
Net investment in capital assets	(6.7)	(7.0)
Restricted	25.2	24.5
Unrestricted	(34.2)	(34.3)
Total net position	\$(15.7)	\$(16.8)

Freeport School District No. 145

Management Discussion and Analysis

GOVERNMENT-WIDE FINANCIAL ANALYSIS (continued)

**Changes in Net Position
Governmental Activities
For the years ended June 30
(In Millions)**

	2019	2018

The cost of governmental activities for this year was \$72.7 million. Local property taxes financed about 32% of this or \$23.3 million.

Operating grants and contributions such as other state and federal aid was the largest contributor with \$23.9 million. General state aid contributed \$21.7 million. Additionally, a small amount comes from payments in lieu of taxes (\$1.7 million) and charges for services (\$3.1 million).

Freeport School District No. 145

Management Discussion and Analysis

DISTRICT FUND'S FINANCIAL ANALYSIS

The District's budget is prepared according to Illinois law and was not amended during the year.

A budget was prepared for all funds except the Internal Service Fund and the Trust and Agency Funds.

General Fund

The General Fund is the District's main operating fund and includes the Educational and the Sub-fund Working Cash. The budget was not amended during the year. Actual revenue for the General Fund was \$58.0 million compared to budgeted revenue of \$42.6 million. Actual revenue was higher than budgeted largely due to on behalf payments to the Teachers' Retirement System (TRS) not being budgeted.

Actual expenditures in the General Fund were \$58.5 million compared to budgeted expenditures of \$42.3 million. Actual expenditures were higher due to on behalf payments to the Teachers' Retirement System (TRS) not being budgeted.

Actual expenditures exceeded actual revenues and other financing sources (uses) for the year by \$1.1 million bringing the General fund balance to \$6.6 million at June 30, 2019.

Operations and Maintenance Fund

The operations and maintenance fund had actual revenues of \$4.6 million and expenditures of \$4.2 million. During the year \$11.4 million was transferred from the Operations and Maintenance fund to the Capital Projects fund resulting in an ending fund balance of \$3.6 million.

Transportation Fund

The Transportation Fund had actual revenues of \$3.5 million and expenditures of \$3.2 million resulting in an ending fund balance of \$4.6 million.

Retirement/Social Security Fund

The Retirement/Social Security Fund had actual revenues of \$1.9 million and expenditures of \$1.6 million resulting in an ending fund balance of \$2.5 million.

Tort Fund

The Tort Fund had actual revenues of \$716 thousand and expenditures of \$491 thousand resulting in an ending fund balance of \$895 thousand.

Debt Service Fund

The Debt Service Fund had actual revenues of \$2.7 million and expenditures of \$2.8 million resulting in an ending fund balance of \$2.2 million.

Freeport School District No. 145

Management Discussion and Analysis

Capital Projects Fund

The Capital Projects Fund had actual revenues of \$22 thousand and expenditures of \$341 thousand. During the year \$11.4 million was transferred from the Operations and Maintenance Fund to the Capital Projects Fund resulting in an ending fund balance of \$11.1 million.

Fire Prevention and Safety Fund

The Fire Prevention and Safety Fund had actual revenues of \$152 thousand and expenditures of \$101 thousand resulting in an ending fund balance of \$372 thousand.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2019, the District had \$55.0 million invested in land, buildings, land improvements and equipment. Of this amount, \$45.7 million in depreciation has accumulated over the years, including \$1.4 million of depreciation being incurred in the current year. The District's net book value of capital assets at June 30, 2019 is \$9.3 million. Total additions for the year were \$799 thousand. More detailed information can be found in Note 6 of the financial statements.

Net Book Value of Capital Assets at June 30 (In Millions)		
	2019	2018
Land	\$.8	\$.8
Buildings	6.0	6.5
Land improvements	.9	1.0
Equipment	1.6	1.8
Total	\$9.3	\$10.1

Debt Administration

At June 30, 2019, the District had \$27.8 million in general obligation bonds. During the year the District retired \$994 thousand in general obligation bonds. Principal due next year on these obligations is \$850 thousand in general obligation bonds.

Outstanding Debt at June 30 (In Millions)		
	2019	2018
General obligation bonds	\$28.7	\$28.8

State statutes limit the amount of debt that a school district may issue. The current unused debt limitation for the District is \$13.1 million under that statutory limit. Additional details on the District's long term debt can be found in Note 7, 8, and 9 of the financial statements.

Freeport School District No. 145

Management Discussion and Analysis

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

The implementation of the State's evidence-based funding (EBF) model that began funding in FY 18 helped the district realize an increase in FY18 state funding of \$1 million over FY17. The EBF continued increased funding in FY19, allocating an additional \$1.4 million dollars more than FY18.

Interest income earnings remain low due to poor investment rates, but slight improvements are being recognized. For FY 20 the District will continue to practice sound fiscal management while trying to meet state and federal mandates and provide the best quality education to the students of Freeport School District No. 145.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of Freeport School District No. 145's finances for all those with interest in the government's finances. Questions concerning any of the information provided in this report, or requests for additional information should be addressed to:

Freeport School District No. 145

Reconciliation of the Balance Sheet of the Governmental Funds to the Statement of Net Position June 30, 2019

Total fund balances - governmental funds \$31,854,112

Amounts reported for governmental activities in the statement of net position
are different because:

Capital assets used in governmental activities are not financial resources and
therefore are not reported as assets in governmental funds. This amount
is the net book value of capital assets reported. 9,339,290

Accrued long-term employee benefits are not due and payable in the current period and
therefore are not reported as liabilities of the funds, but are included as liabilities
and deferred items in the statement of net position 2,133,477
Accrued net pension liability and related deferred outflows/inflows of resources (28,433,986)
Accrued net OPEB liability and related deferred outflows/inflows of resources

An internal service fund is used by the District to charge the costs of employee health
insurance costs to the individual funds. The assets and liabilities of the internal
service fund are included with the governmental activities. (2,748,759)

Current and long-term liabilities, including bonds payable, are not due and payable
in the current period and therefore are not reported as liabilities in the funds.
Current and long-term liabilities at year end consist of:

Deferred amount on refunding	882,761	
Bonds payable	(28,776,413)	(27,893,652)

Total net position - governmental activities (\$15,749,518)

Freeport School District No. 145

Reconciliation of Revenues, Expenditures, and Changes in Fund Balances of the Governmental Funds to the Statement of Activities For the year ended June 30, 2019

Net change in fund balance - governmental funds	((\$393,868)
Amounts reported for governmental activities in the statement of activities are different because:	
Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their useful lives as depreciation expense. This is the amount by which depreciation expense and book value of disposed assets exceeds capitalized assets in the period.	(723,343)
Repayment of bond principal is an expenditures in the governmental funds, but repayment reduces long term liabilities in the statement of net position.	
Current payments	994,120
Amortization of bond premiums and deferred amounts	4,923
An internal service fund is used by the District to charge the costs of employee health insurance costs to the individual funds. The net revenue (expense) of the internal service fund is reported with the governmental activities.	(463,232)
In the statement of activities, net pension and OPEB obligations, and deferred sources are measured by the amounts earned/incurred during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amounts actually paid).	
Net pension obligations and deferred sources	2,739,363
Net OPEB obligations and deferred sources	<u>(1,079,898)</u>
Change in net position of governmental activities	<u><u>\$1,078,065</u></u>

See Accompanying Notes to Financial Statements.

Freeport School District No. 145

Notes to Financial Statements

Note 1 Summary of Significant Accounting Policies

The financial statements of Freeport School District No. 145 ("District") have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to local government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant accounting policies of the District are described below.

Financial Reporting Entity

Generally accepted accounting principles require that the financial reporting entity include (1) the primary government, (2) organizations for which the primary government is financially accountable, and (3) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Primary Government:

The District is organized in accordance with Chapter 105 of the Illinois Compiled Statutes governed by a School Board which is elected by the public and has the exclusive responsibility and accountability for the decisions it makes. The District has the statutory authority to adopt its own budget, to levy taxes and to issue bonded debt without the approval of another government. It has the right to sue and be sued, and has the right to buy, sell, lease or mortgage property in its own name. Based on these criteria, the District is considered a primary government.

Joint Ventures:

The District is a member of Career & Technical Education Consortium along with other area school districts and paid them \$295,756 during the year. The Career & Technical Education Consortium is located at 2037 W. Galena Ave., Freeport, IL 61032. The District's pupils benefit from programs administered under the joint agreement, and the District benefits from jointly administered grants and programming. The District does not have any equity interest in the joint agreement. The joint agreement is separately audited and are not included in these financial statements. Financial information about the joint agreement can be obtained by contacting them at the addresses given above. In addition, the District is not aware of any entity in which the District would exercise such oversight as to result in the District having any component units.

Freeport School District No. 145

Notes to Financial Statements

Note 1 Summary of Significant Accounting Policies (Continued)

Government Wide and Fund Financial Statements

The government wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the District. For the most part, the effect of the interfund activity has been removed from these statements.

The Statement of Activities demonstrates the degree to which the direct expense of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to students or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Certain indirect costs are included in the program expense for individual functions and activities.

Earnings on investments, not properly included among program revenues are reported instead as general revenue.

Separate financial statements are provided for governmental funds, proprietary fund and the fiduciary funds, even though the latter are excluded from the government wide financial statements. For consistency purposes and due to the limited number of funds in the system, all governmental funds are considered major funds.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Non-operating revenues, such as investment income, result from non-exchange transactions.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government wide and proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all the eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. All major revenue types are susceptible to accrual and are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities in the current period. For this purpose, the District considers revenues, except state categorical grant revenue to be available if they are collected, generally, within 60 days of the end of the current fiscal period. State categorical grant revenue is considered available when vouchered by the state comptroller. Expenditures generally are recorded when a liability is incurred, as under the accrual accounting. However, expenditures relating to compensated absences and early retirement are recorded only when payment is due.

Freeport School District No. 145

Notes to Financial Statements

Note 1 **Summary of Significant Accounting Policies (Continued)**

Measurement Focus, Basis of Accounting and Financial Statement Presentation (continued)

The District may report any governmental or enterprise fund (but not internal service funds or fiduciary funds) as a major fund if the government's officials believe the fund is "particularly important to financial statement users". The District has chosen to include the Operations and Maintenance, Retirement/Social Security, Tort, Debt Service and Fire Prevention and Safety Funds as major funds even though the fund calculations do not classify them as major funds. The District views these funds particularly important to the financial users.

The District reports the following fund types and major governmental funds:

General Fund - The General Fund is used to account for all financial resources of the District except those which are required to be accounted for in another fund. The General Fund consists of the Educational Fund and the sub-fund Working Cash Fund. A brief description of the District's two General Funds follows:

Educational Fund - This fund is used for most of the instructional and administrative aspects of the District's operations. Revenues consist primarily of local property taxes and state government aid.

Working Cash Fund - This fund makes temporary cash transfers as necessary to the other funds for ordinary cash requirements. It can also issue bonds and transfer interest to the Governmental Fund Types. It can also be abolished or abated by a Board of Education resolution at the end of any year with the existing balance, plus outstanding taxes collected thereafter, permanently transferred to another fund. Revenues consist primarily of local property taxes.

Special Revenue Funds - Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. Each of the District's Special Revenue Funds has been established as a separate fund in accordance with the fund structure required by the State of Illinois for local educational agencies. A brief description of the District's four Special Revenue Funds follows:

Operations and Maintenance Fund - This fund is used for expenditures made for repair and maintenance of District property. Revenue consists primarily of local property taxes.

Transportation Fund - This fund accounts for all revenues received and expenditures made for student transportation. Revenues are derived primarily from local property taxes and state reimbursement grants.

Municipal Retirement/Social Security Fund - This fund accounts for the District's portion of pension contributions to the Illinois Municipal Retirement Fund and Social Security Fund for non-certified employees. Revenue to finance the contributions are derived primarily from local property taxes.

Freeport School District No. 145

Notes to Financial Statements

Note 1 Summary of Significant Accounting Policies (Continued)

Measurement Focus, Basis of Accounting and Financial Statement Presentation (continued)

Special Revenue Funds continued -

Tort Fund - This fund accounts for all revenues received and expenditures made under the District's Risk Management Plan and Tort Immunity Act. Revenues are derived primarily from local property taxes.

Debt Service Fund - The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, general long-term principal and interest. This fund accounts for the periodic principal and interest payments on the general obligation serial bond issue of the District. Revenues consist primarily of local property taxes.

Capital Projects Funds - The Capital Project Funds are used to account for the financial resources to be used for the acquisition or construction of major capital facilities. The District's Capital Projects Funds are:

Capital Projects Fund- This fund accounts for the financial resources to be used for the acquisition or construction of major capital facilities. Revenues are derived primarily from transfers from the Operations and Maintenance fund to be used for capital projects, but can come from debt issuance.

Fire Prevention and Safety Fund - This fund accounts for the revenues and expenditures made under the Health, Life Safety code of the State of Illinois. Revenues are derived primarily from local property taxes, but can come from debt issuance.

Proprietary Fund Type - Internal Service Funds are used to account for the financing of services provided to other funds of the District. The District's internal service fund is the employee benefit fund which accounts for the District's contributions and expenditures relating to its health and dental plans.

Fiduciary Fund Types - Trust and Agency Funds account for the assets held by the District in a trustee capacity or as an agent for individuals, private organizations, other governmental units, and/or other funds.

A brief description of each of the District's Trust and Agency Funds follows:

Agency Funds -

The Activity Funds account for monies owned and managed by students. The District's responsibility for these funds is custodial in nature.

Amounts reported as program revenues include 1) charges for tuition, fees, rentals, material, supplies, or services provided 2) operating grants and contributions, and 3) capital grants and contributions. General revenues include taxes, earnings on investments and unrestricted state aid.

Freeport School District No. 145

Notes to Financial Statements

Note 1 Summary of Significant Accounting Policies (Continued)

Receivables

Receivables consist of all revenues earned at year-end and not received. All receivables are anticipated to be collected and therefore no allowance for doubtful accounts has been recorded.

Cash and Investments

The District’s cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. The District is authorized to invest in funds according to Illinois Compiled Statutes 30 ILCS 235 under the Public Funds Investment Act.

Investments are reported at fair value (generally based on quoted market prices) except for the position in the State Treasurer’s Investment Pool (Pool). In accordance with state law, the Pool operates in conformity with all of the requirements of the Securities and Exchange Commission’s (SEC) Rule 2a7 as promulgated under the Investment Company Act of 1940, as amended. Accordingly, the Pool qualifies as a 2a7-like pool and is reported at the net asset value per share (which approximates fair value) even though it is calculated using the amortized cost method. The Pool is subject to regulatory oversight by the State Treasurer, although it is not registered with the SEC. Investment in the Pool are not subject to the fair value hierarchy.

Statement of Cash Flows

For purposes of the Statement of Cash Flows, the District considers all investments with a maturity of three months or less when purchased to be cash equivalents for the Proprietary Fund.

Capital assets

Capital assets, which include buildings, land improvements, and equipment are reported in the government-wide financial statements. The District defines capital assets as assets with an initial individual cost of more than \$1,000, and an estimated useful life in excess of one year. Such assets are recorded at historical cost if purchased or constructed. Donated assets are stated at estimated acquisition value as of the date of donation. The cost of normal maintenance and repair that do not add to the value of the asset or materially extend the useful life are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. All capital assets, except land and construction in progress which are not depreciated, are being depreciated using the straight line method over the following useful lines:

Buildings	50 years
Land improvements	20 years
Transportation equipment	5 years
Equipment	10 years

Freeport School District No. 145

Notes to Financial Statements

Note 1 Summary of Significant Accounting Policies (Continued)

Fund Equity

Fund balance is divided into five classifications based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the governmental funds.

The classifications are as follows:

- Non-spendable fund balance – amounts that are not in a spendable form (such as inventory) or are required to be maintained intact;
- Restricted fund balance – amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation;
- Committed fund balance – amounts constrained to specific purposes by a government itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest level action to remove or change the constraint;
- Assigned fund balances – amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegate the authority;
- Unassigned fund balance – amounts that are available for any purpose; positive amounts are reported only in the general fund.

The Board of Education establishes (and modifies or rescinds) fund balance commitments by passage of a resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund (such as for special incentives). Assigned fund balance is established by the Board of Education through adoption or amendment of the budget as intended for specific purpose (such as the purchase of capital assets, construction, debt service, or other purpose).

The District applies restricted resources first when expenditures are incurred for purposes for which restricted and unrestricted (committed, assigned, and unassigned) fund balance is available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

Inventory and prepaid expenditures

Inventory of supplies is valued at cost (first-in, first-out method) and includes items purchased and held for use. Certain payments to vendors reflect costs applicable to future accounting periods and are reported as prepaid items in both government-wide and fund financial statements. Inventory and prepaid expenditures are accounted for using the consumption method and are recognized as an expenditure as they are used.

Freeport School District No. 145

Notes to Financial Statements

Note 1 Summary of Significant Accounting Policies (Continued)

Sick and Vacation Pay

The District follows the policy of allowing unused sick days to accumulate to a maximum of 360 days. However, if the employee does not use the accumulated sick days, the benefit is lost upon any termination of employment other than retirement. If an employee enrolled in IMRF and TRS should retire with accumulated sick days, the number of days accumulated is added to their years of credited service in determining their retirement benefit. Unused vacation days are not allowed to accumulate. As a result, no accrued liability for accumulated unpaid vacation or sick pay has been reflected in the financial statements.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Teachers' Retirement System of the State of Illinois (TRS) and the Illinois Municipal Retirement Fund (IMRF) and additions to/deductions from TRS's and IMRF's fiduciary net position have been determined on the same basis as they are reported by TRS and IMRF. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Other Post-Employment ("OPEB")

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB expense, information about the fiduciary net position of the Teachers' Health Insurance Security Fund ("THISF") and additions to/deductions from THISF's fiduciary net position have been determined on the same basis as they are reported by THISF. For this purpose, OPEB payments (including refunds of employee contributions) are recognized when due and payable in accordance with the OPEB terms. Investments are reported at fair value.

Freeport School District No. 145

Notes to Financial Statements

Note 1 Summary of Significant Accounting Policies (Continued)

New Accounting Pronouncement

Management adopted new accounting guidance GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits other than Pensions. GASB Statement No. 75 replaces the requirements of GASB Statements No. 45 on accounting and financial reporting by employers for postemployment benefits other than pensions.

Note 2 Stewardship, Compliance and Accountability

Excess of expenditures over appropriations

For the year ended June 30, 2019, the Education Fund, Debt Services Fund and Transportation Fund expenditures exceeded appropriations by \$1,686,682, \$77,377 and \$433,289, respectively.

Deficit Fund Equity

At June 30, 2019, the Internal Service Fund had a deficit fund balance of \$2,748,759.

Note 3 Property Taxes

The District's property tax is levied each year on all taxable real property located in the District on or before the last Tuesday in December. The 2018 and 2017 levies were passed by the Board on December 18, 2018 and December 19, 2017, respectively. Property taxes attach as an enforceable lien on property as of January 1 and are payable in two installments on approximately June 1 and September 1. The District receives significant distributions of tax receipts during July, August, September, October, and November. Taxes recorded in these financial statements are from the 2018 and prior tax levies.

Property tax receivables reflect the estimated collectible portion of the current year levy. The District historically has received at least one-half of its tax monies by the end of August. The District, to be consistent with past years, has therefore recognized 50% of current year tax levies as revenue for the period each year.

Note 4 Cash Deposits and Investments

Custodial credit risk-deposits. In the case of deposits, this is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The government does not have a deposit policy for custodial credit risk. As of June 30, 2019, the government's bank balance was \$4,494,581 and the entire balance was collateralized with securities held by the pledging or financial institution's trust department or agent in the government's name.

As of June 30, 2019 the District had the following investments at fair value:

State Investment Pool	<u>\$15,279,984</u>
-----------------------	---------------------

Freeport School District No. 145

Notes to Financial Statements

Note 4 Cash Deposits and Investments (Continued)

Interest rate risk. Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The government has no specific policy on the interest rate risk at year-end. Information about the sensitivity of the fair values of the government’s investments to market interest rate fluctuations is provided by the following table that shows the distribution of the government’s investments by maturity:

	Remaining Maturity (in Months)			
	<u>12 Months or Less</u>	<u>13-60 Months</u>	<u>60+ Months</u>	<u>Total</u>
State Investment Pool	<u>\$15,279,985</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$15,279,985</u>

Credit risk. Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the actual rating as of year-end for each investment type:

	<u>Total as of June 30, 2019</u>	<u>A1</u>
State Investment Pool	<u>\$15,279,985</u>	<u>\$15,279,985</u>

Concentration of credit risk. The government’s investment policy does not allow for an investment in any one issuer that is in excess of 5 percent of the government’s total investments.

Custodial credit risk-investments. For an investment, this is the risk that, in the event of the failure of the counterparty, the government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party.

As of June 30, 2019 there are no investments with custodial credit risk in that all of its investments are insured.

Foreign Currency Risk. The government has no foreign currency risk for investments at year end.

Note 5 Common Bank Account/Interfund Balances

Separate bank accounts are not maintained for all District funds; instead, certain funds maintain balances in common checking and money market accounts, with the accounting records being maintained to show the portion of the common account balance attributable to each participating fund. Occasionally certain funds participating in the common bank accounts will incur overdrafts (deficits) in the account. The overdrafts result from expenditures which have been approved by the School Board. A deficit in one fund restricts the cash available for use by other funds in the same common account. As of June 30, 2019, the Internal Service Fund had a net deficit balance of \$1,950,000 that was reclassified to due to the Education Fund in an amount of \$1,950,000. The amounts will be paid when the cash position in the respective funds improve.

Freeport School District No. 145

Depreciation expense was charged to governmental functions as follows:

Governmental activities:		
Instruction		\$ 995,150
Central services		15,026
Instructional staff		132,301
Business services		292,432
Total depreciation expense, governmental activities		\$1,434,909

Freeport School District No. 145

Notes to Financial Statements

Note 7 Long-Term Debt

Long-term debt activity for the year ended June 30, 2019 was as follows:

	<u>Balance on July 1, 2018</u>	<u>Issued</u>	<u>Retired</u>	<u>Refunded</u>	<u>Balance June 30, 2019</u>	<u>Due within One Year</u>
General obligation bonds	<u>\$28,809,003</u>	<u>\$ -</u>	<u>\$ 994,120</u>	<u>\$ -</u>	<u>\$27,814,883</u>	<u>\$849,505</u>

Bonded indebtedness current requirements for principal and interest expenditures are payable from future revenues of the Debt Service Fund. The revenues consist principally of property taxes collected by the District and interest earnings. Bonded indebtedness consists of the following:

Limited Tax Capital Appreciation School Bonds, Series 2003

Dated	April 9, 2003
Purpose	Fire Prevention and Safety Needs
Original issue	\$20,182,851
Principal date	January 1
Interest date	January 1 and July 1
Rate	4.961%

These Bonds were partially refunded with the issuance of the 2018 Refunding Bonds.

<u>Fiscal Year ended June 30,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2020	\$ 604,505	\$ 767,748	\$ 1,372,253

Freeport School District No. 145

Notes to Financial Statements

Note 8 Debt Defeasance

In prior years, the District defeased a portion of the Series 2003, 2007, and 2010 Bonds by creating separate irrevocable escrow funds. New debt has been issued and the proceeds have been used to purchase U.S. government securities that were placed in the escrow funds. The investments and fixed earnings from the investments are sufficient to fully service the defeased debt until the debt is called or matures. For financial reporting purposes, the debt has been considered defeased and therefore removed as a liability from the District's financial statements. As of June 30, 2019, the amount of defeased debt outstanding but removed from the District's financial statements related to the 2003, 2007 and 2010 defeasances amounted to \$12,151,472.

Note 9 Legal Debt Margin

2018 Equalized assessed valuation	<u>\$296,256,002</u>
Statutory debt limitation	
13.8% of 2018 equalized assessed valuation	\$40,883,328
Less indebtedness – Bonds	<u>27,814,883</u>
Legal debt margin	<u>\$13,068,445</u>

Note 10 Operating Leases

On July 15, 2014, the District entered into an operating lease with Sovereign Bank for the lease of seven 72 passenger school buses. A payment of \$74,130 was made on July 15, 2014, with payments of the same amount required each year until July 16, 2018.

On July 20, 2015, the District entered into an operating lease with Sovereign Bank for the lease of three 72 passenger school buses. A payment of \$29,808 was made on July 20, 2015, with payments of the same amount required each year until July 20, 2019.

On July 20, 2016, the District entered into an operating lease with Sovereign Bank for the lease of six 72 passenger school buses. A payment of \$66,336 was made on July 20, 2016, with payments of the same amount required each year until July 20, 2020.

On July 10, 2018, the District entered into two operating leases with Sovereign Bank for the lease of 14 72 passenger school buses. Payments of \$162,692 were made on July 25, 2018, with payments of the same required each year until July 20, 2022.

Freeport School District No. 145

Notes to Financial Statements

Note 10 Operating Leases (Continued)

The District made payments of \$349,604 for operating leases during the year ended June 30, 2019. The schedule of future operating leases are as follows:

<u>Fiscal Year</u> <u>Ended June 30</u>	<u>Total</u>
2020	\$209,495
2021	190,364
2022	<u>142,541</u>
Total	<u>\$542,400</u>

Note 12 Retirement Fund Commitments

The school district participates in two retirement systems: The Teachers' Retirement System of the State of Illinois (TRS) and the Illinois Municipal Retirement Fund (IMRF).

Teachers' Retirement System of the State of Illinois

Plan description - The employer participates in the Teachers' Retirement System of the State of Illinois (TRS). TRS is a cost-sharing multiple-employer defined benefit pension plan that was created by the Illinois legislature for the benefit of Illinois public school teachers employed outside the city of Chicago. TRS members include all active non-annuitants who are employed by a TRS-covered employer to provide services for which teacher licensure is required. The Illinois Pension Code outlines the benefit provisions of TRS, and amendments to the plan can be made only by legislative action with the Governor's approval. The TRS Board of Trustees is responsible for the System's administration.

TRS issues a publicly available financial report that can be obtained at <http://trs.illinois.gov/pubs/cafr>; by writing to TRS at 2815 W. Washington, PO Box 19253, Springfield, IL 62794; or by calling (888)678-3675, option 2.

Freeport School District No. 145

Notes to Financial Statements

Note 12 Retirement Fund Commitments

Benefits provided - TRS provides retirement, disability, and death benefits. Tier 1 members have TRS or reciprocal system service prior to January 1, 2011. Tier 1 members qualify for retirement benefits at age 62 with five years of service, at age 60 with 10 years, or age 55 with 20 years. The benefit is determined by the average of the four highest years of creditable earnings within the last 10 years of creditable service and the percentage of average salary to which the member is entitled. Most members retire under a formula that provides 2.2 percent of final average salary up to a maximum of 75 percent with 34 years of service. Disability and death benefits are also provided.

Tier 2 members qualify for retirement benefits at age 67 with 10 years of service, or a discounted annuity can be paid at age 62 with 10 years of service. Creditable earnings for retirement purposes are capped and the final average salary is based on the highest consecutive eight years of creditable service rather than the last four. Disability provisions for Tier 2 are identical to those of Tier 1. Death benefits are payable under a formula that is different from Tier 1.

Essentially all Tier 1 retirees receive an annual 3 percent increase in the current retirement benefit beginning January 1 following the attainment of age 61 or on January 1 following the member's first anniversary in retirement, whichever is later. Tier 2 annual increases will be the lesser of three percent of the original benefit or one-half percent of the rate of inflation beginning January 1 following attainment of age 67 or on January 1 following the member's first anniversary in retirement, whichever is later.

Public Act 100-0023, enacted in 2017, creates an optional Tier 3 hybrid retirement plan, but it has not yet gone into effect. The earliest possible implementation date is July 1, 2020. Public Act 100-0587, enacted in 2018, requires TRS to offer two temporary benefit buyout programs that expire on June 30, 2021. One program allows retiring Tier 1 members to receive a partial lump-sum payment in exchange for accepting a lower, delayed annual increase. The other allows inactive vested Tier 1 and 2 members to receive a partial lump-sum payment in lieu of a retirement annuity. Both programs will begin in 2019 and will be funded by bonds issued by the state of Illinois.

Contributions - The state of Illinois maintains the primary responsibility for funding TRS. The Illinois Pension Code, as amended by Public Act 88-0593 and subsequent acts, provides that for years 2010 through 2045, the minimum contribution to the System for each fiscal year shall be an amount determined to be sufficient to bring the total assets of the System up to 90 percent of the total actuarial liabilities of the System by the end of fiscal year 2045.

Contributions from active members and TRS contributing employers are also required by the Illinois Pension Code. The contribution rates are specified in the pension code. The active member contribution rate for the year ended June 30, 2018, was 9.0 percent of creditable earnings. The member contribution, which may be paid on behalf of employees by the employer, is submitted to TRS by the employer.

On behalf contributions to TRS. The state of Illinois makes employer pension contributions on behalf of the employer. For the year ended June 30, 2019, state of Illinois contributions recognized by the employer were based on the state's proportionate share of the collective NPL associated with the employer, and the employer recognized revenue and expenditures of \$15,540,734 in pension contributions from the state of Illinois.

Freeport School District No. 145

Notes to Financial Statements

Note 12 Retirement Fund Commitments (Continued)

Teachers' Retirement System of the State of Illinois (Continued)

2.2 formula contributions. Employers contribute 0.58 percent of total creditable earnings for the 2.2 formula change. The contribution rate is specified by statute. Contributions for the year ended June 30, 2019 were \$133,741 and are deferred because they were paid after the June 30, 2018 measurement date.

Federal and special trust fund contributions. When TRS members are paid from federal and special trust funds administered by the employer, there is a statutory requirement for the employer to pay an employer pension contribution from those funds. Under Public Act 100-0340, the federal and special trust fund contribution rate is the total employer normal cost beginning with the year ended June 30, 2018. Previously, employer contributions for employees paid from federal and special trust funds were at the same rate as the state rate to TRS and were much higher.

For the year ended June 30, 2019, the employer pension contribution was 9.85 percent of salaries paid from federal and special trust funds. For the year ended June 30, 2019, salaries totaling \$529,064 were paid from federal and special trust funds that required employer contributions of \$52,113. These contributions are deferred because they were paid after the June 30, 2018 measurement date.

Employer retirement cost contributions. Under GASB Statement No. 68, contributions that an employer is required to pay because of a TRS member retiring are categorized as specific liability payments. The employer is required to make a one-time contribution to TRS for members granted salary increase over 6 percent if those salaries are used to calculate a retiree's final average salary. Additionally, beginning with the year ended June 30, 2019, employers will make a similar contribution for salary increases over 3 percent if members are not exempted by current collective bargaining agreements or contracts.

A one-time contribution is also required for members granted sick leave days in excess of the normal annual allotment if those days are used as TRS service credit. For the year ended June 30, 2019, the employer paid \$0 to TRS for employer contributions due on salary increases in excess of 6 percent, \$0 for salary increases in excess of 3 percent and \$0 for sick leave days granted in excess of the normal annual allotment.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions -

At June 30, 2019, the employer had a liability for its proportionate share of the net pension liability (first amount shown below) that reflected a reduction for state pension support provided to the employer. The amount recognized by the employer as its proportionate share of the net pension liability, the related state support, and the total portion of the net pension liability that was associated with the employer were as follows:

Freeport School District No. 145

Notes to Financial Statements

Note 12 Retirement Fund Commitments (Continued)

Teachers' Retirement System of the State of Illinois (Continued)

Employer's proportionate share of the net pension liability	\$ 2,415,531
State's proportionate share of the net pension liability associated with the employer	165,473,979
<hr/>	
Total	\$167,889,510

The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2017, and rolled forward to June 30, 2018. The employer's proportion of the net pension liability was based on the employer's share of contributions to TRS for the measurement year ended June 30, 2018, relative to the projected contributions of all participating TRS employers and the state during that period. At June 30, 2018, the employer's proportion was .003099 percent, which was a decrease of .005654 percent from its proportion measured as of June 30, 2017.

For the year ended June 30, 2019, the employer recognized pension expense of \$15,726,587 and revenue of \$15,540,734 for support provided by the state. At June 30, 2019, the employer reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 48,547	\$ 527
Net difference between projected and actual earnings on pension plan investments	-	7,396
Changes of assumptions	105,944	68,461
Changes in proportion and differences between employer contributions and proportionate share of contributions	120,629	4,177,760
Employer contributions subsequent to the measurement date	185,853	-
<hr/>		
Total	\$460,973	\$4,254,144

The District reported \$185,853 as deferred outflows of resources related to pensions resulting from employer contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the reporting year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows in these reporting years:

Year ended June 30:	To be recognized in pension expense
2020	\$(902,220)
2021	(1,006,727)
2022	(949,649)
2023	(775,757)
2024	(344,671)

Freeport School District No. 145

Notes to Financial Statements

Note 12 Retirement Fund Commitments (Continued)

Teachers' Retirement System of the State of Illinois (Continued)

Actuarial assumptions - The total pension liability in the June 30, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50 percent
Salary increases	Varies by amount of service credit
Investment rate of return	7.00 percent, net of pension plan investment expense, including inflation

In the June 30, 2018 actuarial valuation, mortality rates were based on the RP-2014 White Collar Table with adjustments as appropriate for TRS experience. These rates are used on a fully-generational basis using projection table MP-2017. In the June 30, 2017 actuarial valuation, mortality rates were also based on the RP-2014 White Collar Table with appropriate adjustments for TRS experience. The rates were used on a fully-generational basis using projection table MP-2014.

The long-term (20-year) expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class that were used by the actuary are summarized in the following table.

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
U.S. equities large cap	15.0%	6.7%
U.S. equities small/mid-cap	2.0	7.9
International equities developed	13.6	7.0
Emerging market equities	3.4	9.4
U.S. bonds core	8.0	2.2
U.S. bonds high yield	4.2	4.4
International debt development	2.2	1.3
Emerging international debt	2.6	4.5
Real estate	16.0	5.4
Real return	4.0	1.8
Absolute return	14.0	3.9
Private equity	15.0	10.2
Total	100%	

Freeport School District No. 145

Notes to Financial Statements

Note 12 Retirement Fund Commitments (Continued)

Teachers' Retirement System of the State of Illinois (Continued)

Discount rate - At June 30, 2018, the discount rate used to measure the total pension liability was a blended rate of 7.0 percent, which was a change from the June 30, 2017 rate. The projection of cash flows used to determine the discount rate assumed that employee contributions, employer contributions, and state contributions will be made at the current statutorily-required rates.

Based on those assumptions, TRS's fiduciary net position at June 30, 2018 was not projected to be available to make all projected future benefit payments of current active and inactive members and all benefit recipients. Tier 1's liability is partially funded by Tier 2 members, as the Tier 2 member contribution is higher than the cost of Tier 2 benefits. Due to this subsidy, contributions from future members in excess of the service cost are also included in the determination of the discount rate. Despite the subsidy, all projected future payments were not covered, so the long-term expected rate of return on TRS investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the employer's proportionate share of the net pension liability to changes in the discount rate - The following presents the employer's proportionate share of the net pension liability calculated using the discount rate of 7.0 percent, as well as what the employer's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage-point lower (6.0 percent) or 1-percentage-point higher (8.0 percent) than the current rate.

	1% Decrease (6.0%)	Current Rate (7.0%)	1% Increase (8.0%)
Employer's proportionate share of the net pension liability	\$2,962,420	\$2,415,531	\$1,975,120

TRS fiduciary net position - Detailed information about the TRS's fiduciary net position as of June 30, 2018 is available in the separately issued TRS *Comprehensive Annual Financial Report*.

Freeport School District No. 145

Notes to Financial Statements

Note 12 Retirement Fund Commitments (Continued)

Illinois Municipal Retirement Fund

Plan description – The employer’s defined benefit pension plan for regular employees provides retirement and disability benefits, post-retirement increases, and death benefits to plan members and beneficiaries. The employer’s plan is managed by the Illinois Municipal Retirement Fund (IMRF), the administrator of a multi-employer public pension fund. A summary of IMRF’s pension benefits is provided in the “Benefits Provided” section of this document. Details of all benefits are available from IMRF. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available Comprehensive Annual Financial Report that includes financial statements, detailed information about the pension plan’s fiduciary net position, and required supplementary information. The report is available for download at www.imrf.org.

Benefits provided - IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff’s Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date).

All three IMRF benefit plans have two tiers. Employees hired **before** January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Employees hired **on or after** January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the *lesser* of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

Freeport School District No. 145

Notes to Financial Statements

Note 12 Retirement Fund Commitments (Continued)

Illinois Municipal Retirement Fund (Continued)

Employees Covered by the Benefit Terms - At the December 31, 2018 valuation date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	306
Inactive employees entitled to but not yet receiving benefits	293
Active employees	356
<hr/>	
Total	955

Contributions – As set by statute, the employer’s Regular Plan Members are required to contribute 4.5% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The employer’s annual contribution rate for calendar year 2018 was 7.0%. For the fiscal year ended June 30, 2019, the employer contributed \$583,688 to the plan. The employer also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by IMRF’s Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Net Pension Liability - The employer’s Net Pension Liability was measured as of December 31, 2018, and the total pension liability used to calculate the Net Pension Liability was determined by an annual actuarial valuation as of that date.

Actuarial assumptions – The following are the methods and assumptions used to determine total pension liability at December 31, 2018:

- The **Actuarial Cost Method** used was Entry Age Normal.
- The **Asset Valuation Method** used was Market Value of Assets.
- The **Inflation Rate** was assumed to be 2.50%.
- **Salary Increases** were expected to be 3.39% to 14.25%, including inflation.
- The **Investment Rate of Return** was assumed to be 7.50%.
- **Retirement Age** was from the Experience-based Table of Rates, specific to the type of eligibility condition, last updated for the 2017 valuation according to an experience study from year 2014 to 2016.
- The IMRF-specific rates for **Mortality** (for non-disabled retirees) were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience.

Freeport School District No. 145

Notes to Financial Statements

Note 12 Retirement Fund Commitments (Continued)

Illinois Municipal Retirement Fund (Continued)

- The **long-term expected rate of return** on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table as of December 31, 2018:

<u>Asset Class</u>	<u>Portfolio Target Percentage</u>	<u>Long-Term Expected Real Rate of Return</u>
Domestic Equity	37%	7.15%
International Equity	18%	7.25%
Fixed Income	28%	3.75%
Real Estate	9%	6.25%
Alternative Investments	7%	3.20-8.50%
Cash Equivalents	1%	2.50%
Total	100%	

Single Discount rate - A Single Discount Rate of 7.25% was used to measure the total pension liability. The projection of cash flow used to determine this Single Discount Rate assumed that the plan members' contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The Single Discount Rate reflects:

1. The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and
2. The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of the most recent valuation, the expected rate of return on plan investments is 7.25%, the municipal bond rate is 3.71%, and the resulting single discount rate is 7.25%.

Employer contributions subsequent to the measurement date	275,846	-
Total	\$18,543,154	\$6,639,059

The District reported \$275,846 as deferred outflows of resources related to pensions resulting from employer contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the reporting year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:	To be recognized in pension expense
2020	\$(515,876)
2021	3,029,189
2022	2,786,274
2023	3,431,765
2024	2,452,088
Thereafter	444,809

Reconciliation of Pension Amounts to the Financial Statements

	Net Pension Asset	Deferred Outflows Of Resources	Net Pension Liability	Deferred Inflows Of Resources

Notes to Financial Statements

Note 13 Interfund Transactions

<u>From</u>	<u>To</u>	<u>Amount Transferred</u>	<u>Purpose</u>
O & M fund	Capital Projects	\$11,400,000	Funding future capital projects
Fund due to Education Fund	Fund due from Internal Service	Amount \$1,950,000	Cash overdraft

Note 14 Risk Management

The District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. In order to handle such risks of loss, the District purchases commercial insurance coverage and self-insures for unemployment insurance purposes (see Note 16). There have been no significant reductions in insurance coverage from the prior year. The amounts of settlements have not exceeded insurance coverage for any of the past three years.

Note 15 Contingencies

The District has received funding from state and federal grants in the current and prior years which are subject to audits by the granting agencies. The School Board believes any adjustments that may arise from these audits will be insignificant to District operations.

Note 16 Employee's Health Benefit Account

On July 1, 2001 the District established an all Insurance Program Health Plan with an insurance company. Self-insurance is in effect up to an aggregate stop/loss of \$5,266,366 with a \$100,000 per covered person stop/loss. Coverage from a private insurance company is maintained for losses in excess of the aggregate stop/loss amount. The internal service fund reflects the assets and liabilities of this account.

The following represents changes in those liabilities for the District during the past two years:

<u>Beginning of</u> <u>Year Ending</u> <u>June 30</u>	<u>Current Year</u> <u>Claims and</u> <u>Fiscal Year</u> <u>Liability</u>	<u>Changes</u> <u>in Estimates</u>	<u>Claim</u> <u>Payments</u>	<u>Balance</u> <u>at Fiscal</u> <u>Year End</u>
2018	\$322,225	\$5,727,884	\$5,710,215	\$339,894
2019	\$339,894	\$7,025,815	\$6,555,733	\$809,976

Note 17 Post-Employment Benefits

Teachers Health Insurance Security Fund (“THISF”)

Plan description –The Teacher Health Insurance Security Fund (THISF) (also known as The Teacher Retirement Insurance Program, “TRIP”) is a non-appropriated trust fund held outside the State Treasury, with the State Treasurer as custodian. Additions deposited into the Trust are for the sole purpose of providing the health benefits to retirees, as established under the plan, and associated administrative costs. TRIP is a cost-sharing multiple-employer defined benefit post-employment healthcare plan with a special funding situation that covers retired employees of participating school districts throughout the State of Illinois, excluding the Chicago Public School System. TRIP health coverage includes provisions for medical, prescription, and behavioral health benefits, but does not provide vision, dental, or life insurance benefits. Annuitants may participate in the State administered Preferred Provider Organization plan or choose from several managed care options. As a result of the Governor’s Executive Order 12-01, the responsibilities in relation to TRIP were transferred to the Department of Central Management Services (Department) as of July 1, 2013. The Department administers the plan with the cooperation of the Teachers’ Retirement System (TRS).

Based upon the required criteria, the THISF has no component units and is not a component unit of any other entity. However, because the THISF is not legally separate from the State of Illinois, the financial statements of the THISF are included in the financial statements of the State of Illinois as a pension (and other employee benefit) trust fund. The State of Illinois’ Comprehensive Annual Financial Report may be obtained by writing to the State Comptroller’s Office, Division of Financial Reporting, 325 West Adams Street, Springfield, Illinois, 62704-1871.

Benefits provided – The State Employees Group Insurance Act of 1971 (5 ILCS 375/6.5) requires that the Department’s Director determine the rates and premiums of annuitants and dependent beneficiaries and establish the cost-sharing parameters, as well as funding. Member premiums are set by this statute, which provides for a subsidy of either 50% or 75%, depending upon member benefit choices. Dependents are eligible for coverage, at a rate of 100% of the cost of coverage.

Contributions – The State Employees Group Insurance Act of 1971 (5 ILCS 375/6.6) requires that all active contributors of the TRS, who are not employees of a department, make contributions to the plan at a rate of 1.24% of salary and for every employer of a teach to contribute an amount equal to .92% of each teacher’s salary. The Department determines, by rule, the percentage required, which each year shall not exceed 105% of the percentage of salary actually required to be paid in the previous fiscal year. In addition, under the State Pension Funds Continuing Appropriations Act (40 ILCS 15/1.3), there is appropriated, on a continuing annual basis, from the General Revenue Fund, an account of the General Fund, to the State Comptroller for deposit in the THISF, an amount equal to the amount certified by the Board of Trustees of TRS as the estimated total amount of contributions to be paid under 5 ILCS 376/6.6(a) in that fiscal year.

The State Employees Group Insurance Act of 1971 (5 ILCS 375/6.5) requires that the Department’s Director determine the rates and premiums of annuitants and dependent beneficiaries and establish the cost-sharing parameters, as well as funding. Member premiums are set by this statute, which provides for a subsidy of either 50% or 75%, depending upon

Teachers Health Insurance Security Fund (“THISF”) (continued)

member benefit choices. Dependents are eligible for coverage, at a rate of 100% of the cost of coverage.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB - At June 30, 2019, the employer reported a liability for its proportionate share of the net OPEB liability (first amount shown below) that reflected a reduction for state OPEB support provided to the employer. The state’s support and total are for disclosure purposes only. The amount recognized by the employer as its proportionate share of the net OPEB liability, the related state support, and the total portion of the net OPEB liability that was associated with the employer were as follows:

District’s proportionate share of the net OPEB liability	\$24,671,518
State’s proportionate share of the net OPEB liability associated with the employer	25,288,767
Total	\$49,960,285

The net OPEB liability was measured as of June 30, 2018, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2017, and rolled forward to June 30, 2018. The District’s proportion of the net OPEB liability was based on the District’s share of contributions to THISF for the measurement year ended June 30, 2018, relative to the contributions of all participating THISF employers and the state during that period. At June 30, 2018, the District’s proportion was 0.093645 percent, which was a decrease of 0.000609 from its proportion measured as of June 30, 2017.

For the year ended June 30, 2019, the District recognized OPEB expense of \$195,354. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB, from the following sources:

Freeport School District No. 145

Notes to Financial Statements

Note 17 Post-Employment Benefits (Continued)

Teachers Health Insurance Security Fund (“THISF”) (continued)

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$0	\$88,522
Net difference between projected and actual earnings on OPEB plan investments	0	757
Changes of assumptions	0	3,592,587
Changes in proportion and differences between employer contributions and proportionate share of contributions	38	292,780
Employer contributions subsequent to the measurement date	212,140	0
Total	\$212,178	\$3,974,646

\$212,140 reported as deferred outflows of resources related to OPEB resulting from employer contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the reporting year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OBEP expense as follows:

Year ended June 30:	Net Deferred Inflows of Resources
2020	\$(532,789)
2021	(532,789)
2022	(532,789)
2023	(532,789)
2024	(532,789)
Thereafter	(1,310,663)
Total	\$(3,974,608)

Actuarial Assumptions - The total OPEB liability was determined by an actuarial valuation as of June 30, 2017, using the following actuarial assumptions, applied to all periods included in the measurement date, unless otherwise specified:

Inflation	2.75%
Salary increases	Depends on service and ranges from 9.25% at less than 1 year of service to 3.25% at 20 or more years of service. Salary increase includes a 3.25% wage inflation assumption.

Freeport School District No. 145

Notes to Financial Statements

Note 17 Post-Employment Benefits (Continued)

Teachers Health Insurance Security Fund (“THISF”) (continued)

Investment rate of return	0%, net of OPEB plan investment expense, including inflation
Healthcare cost trend rates	Actual trend used for fiscal year 2018. For fiscal years on and after 2019, trend starts at 8.00% and 9.00% for non-Medicare costs and post-Medicare costs, respectively, and gradually decreases to an ultimate trend of 4.5%. Additional trend rate of 0.36% is added to non-Medicare cost on and after 2022 to account for the Excise Tax.

Mortality rates for retirement and beneficiary annuitants were based on the RP-2014 White Collar Annuitant Mortality Table, adjusted for TRS experience. For disabled annuitants mortality rates were based on the RP-Disabled Annuitant table. Mortality rates for pre-retirement were based on the RP-2014 Whited Collar Table. All tables reflect future mortality improvements using Projection Scale MP-2014.

The actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2014.

The following OPEB-related assumption changes were made since the June 30, 2016, OPEB actuarial valuation date:

- The discount rate was changed from 3.56 percent at June 30, 2017 to 3.62 percent at June 30, 2018;
- The healthcare trend assumption was updated based on claim and enrollment experience through June 30, 2017, projected plan cost for plan year end June 30, 2018, premium changes through plan year end 2019, and expectation of future trend increases after June 30, 2018;
- The Excise trend rate adjustment was updated based on available premium and enrollment information as of June 30, 2018;
- Per capita claim costs for plan year June 30, 2029, were updated based on projected claims and enrollment experience through June 30, 2018, and updated premium rates through plan year 2019; and
- Healthcare plan participation rates by plan were updated based on observed experience

Projected benefit payments were discounted to their actuarial present value using a Single Discount Rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the plan’s fiduciary net position is projected to be sufficient to pay benefits), and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bond with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met). Since TRIP is financed on a pay-as-you-go basis, a discount rate consistent with the 20-year general obligation bond index has been selected.

Freeport School District No. 145

Notes to Financial Statements

Note 17 Post-Employment Benefits (Continued)

Teachers Health Insurance Security Fund (“THISF”) (continued)

The discount rates are 3.56% as of June 30, 2017, and 3.62% as of June 30, 2018. The increase in the single discount rate from 3.56% to 3.62% caused the total OPEB liability to decrease by approximately \$285 million from 2017 to 2018.

Sensitivity of Net OPEB Liability to Changes in the Single Discount Rate - The following presents the plan’s net OPEB liability, calculated using a Single Discount Rate of 3.62%, as well as what the plan’s net OPEB liability would be if it were calculated using a Single Discount rate that is one percentage point higher (4.62%) or lower (2.62%) than the current rate:

Sensitivity of Net OPEB Liability as of June 30, 2018 to the Single Discount Rate Assumption			
	1% Decrease (2.62%)	Current Single Discount Rate Assumption (3.62%)	1% Increase (4.62%)
Net OPEB liability	\$29,664,678	\$24,671,518	\$20,729,842

Sensitivity of Net OPEB Liability to Changes in the Healthcare Cost Trend Rate - The following presents the plan’s net OPEB liability, calculated using the healthcare cost trend rates of well as what the plan’s net OPEB liability would be if it were calculated using a healthcare cost trend rate that is one percentage point higher or lower, than the current healthcare cost trend rates. The key trend rates are 8.00% in 2019 decreasing to an ultimate trend rate of 4.86% in 2026, for non-Medicare coverage, and 9.00% in 2019 decreasing to an ultimate trend rate of 4.50% in 2028 for Medicare coverage.

Sensitivity of Net OPEB Liability as of June 30, 2017 to the Healthcare Cost Trend Rate Assumption			
	1% Decrease (a)	Healthcare Cost Trend Rates Assumption	1% Increase (b)
Net OPEB liability	\$20,004,605	\$24,671,518	\$30,958,969

- (a) One percentage point decrease in healthcare trend rates are 7.00% in 2019 decreasing to an ultimate trend rate of 3.86% in 2026, for non-Medicare coverage, and 8.00% in 2019 decreasing to an ultimate trend rate of 3.50% in 2027 for Medicare coverage.
- (b) One percentage point increase in healthcare trend rates are 9.00% in 2019 decreasing to an ultimate trend rate of 5.86% in 2026, for non-Medicare coverage, and 10.00% in 2019 decreasing to an ultimate trend rate of 5.50% in 2028 for Medicare coverage.

Freeport School District No. 145

Notes to Financial Statements

Note 18 Impact of Pending Standards

GASB Statement No. 84, *Fiduciary Activities* establishes criteria for identifying fiduciary activities of all state and local governments. This statement also provides for recognition of a liability to the beneficiaries in a fiduciary fund when an event has occurred that compels the government to disburse fiduciary resources. The requirements of this Statement are effective for reporting periods beginning after December 15, 2018. The District has not determined the effect of this Statement.

GASB Statement No. 87, *Leases*, improves accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. The requirements of this Statement are effective for reporting periods beginning after December 15, 2019. The District has not determined the effect of this Statement.

GASB Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*, enhances the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and to simplify accounting for interest cost incurred before the end of a construction period. This Statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. The requirements of this Statement are effective for reporting periods beginning after December 15, 2019. The District has not determined the effect of this Statement.

GASB Statement No. 90, *Majority Equity Interests* an amendment of GASB Statements No. 14 and No. 61, improves accounting and financial reporting by presenting majority equity interest in legally separate organizations that were previously reported inconsistently. This Statement defines a majority equity interest and specifies that a majority equity interest in a legally separate organization should be reported as an investment if a government's holding of the equity interest meets the definition of an investment. The requirements of this Statement are effective for reporting periods beginning after December 15, 2018. The District has not determined the effect of this Statement.

Freeport School District No. 145

Notes to Required Supplementary Information

Note 1 Summary of Actuarial Methods and Assumptions Used in the Calculation of the 2018 Contribution Rate for IMRF *

Valuation date:

Notes Actuarially determined contribution rates are calculated as of December 31 each year, which is 12 months prior to the beginning of the fiscal year in which contributions are reported.

Methods and Assumptions Used to Determine Contribution Rates:

Actuarial Cost Method	Aggregate Entry Age Normal
Amortization Method	Level Percentage of Payroll, Closed
Remaining Amortization Period	Non-Taxing bodies: 10-year rolling period. Taxing bodies (Regular, SLEP and ECO groups): 25-year closed period Early Retirement Incentive Plan liabilities: a period up to 10 years selected by the Employer upon adoption of ERI. SLEP supplemental liabilities attributable to Public Act 94-712 were financed over 20 years for most employers (three employers were financed over 29 years).
Asset Valuation Method	5-Year smoothed market; 20% corridor
Wage growth	3.50%
Price Inflation	2.75%
Salary Increases	3.75% to 14.50% including inflation
Investment Rate of Return	7.50%
Retirement Age	Experience-based table of rates that are specific to the type of eligibility condition. Last updated for the 2014 valuation pursuant to an experience study of the period 2011-2013.
Mortality	For non-disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustment that were applied for non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.

Freeport School District No. 145

Notes to Required Supplementary Information

Note 1 Summary of Actuarial Methods and Assumptions Used in the Calculation of the 2018 Contribution Rate for IMRF * (Continued)

Other Information:

Notes There were no benefit changes during the year.

* Based on Valuation Assumptions used in the December 31, 2016 actuarial valuation

Note 2 Budgets and Budgetary Accounting

The budget for the Government Funds is prepared on the modified accrual basis of accounting, which is the same basis used in financial reporting. This allows for comparability between budget and actual amounts. The budget was not amended. A budget is not prepared for the Proprietary or Trust and Agency Funds.

For each fund, total fund expenditures may not legally exceed the budgeted expenditures. The budget lapses at the end of each fiscal year.

The District follows these procedures in establishing the budgetary data reflected in the financial statements.

- Annually the Superintendent submits to the Board of Education a proposed operating budget for the fiscal year commencing the following July 1. The operating budget includes proposed expenditures and the means of financing them.
- Public hearings are conducted at a public meeting to obtain taxpayer comments after the proposed budget has been made available to the public for a 30-day period.
- Prior to September 30, the budget is legally enacted through passage of a resolution.
- Legal spending control for District monies is at the fund level, but management control is exercised at budgetary line item levels within each fund. The Board of Education may amend the budget after it is approved using the same procedures necessary to approve the original budget. The Board also authorizes transfers between the various budgetary line items in any fund, not exceeding, in the aggregate, 10% of the total amount budgeted for such fund. There were no amendments or authorized transfers to the original budget.

Note 3 Excess of Disbursements Over Appropriations

For the year ended June 30, 2019, the Education Fund, Transportation Fund and Debt Services Fund expenditures exceeded appropriations by \$1,040,603 (excluding on behalf payments), \$303,747 and \$77,377, respectively.

Freeport School District No. 145

Notes to Required Supplementary Information

Note 4 THISF Methods and Assumptions

Actuarial Cost Method	Entry age normal, used to measure the total OPEB liability
Contribution policy	Benefits are financed on a pay-as-you-go basis. Contribution rates are defined by statute. For fiscal year end June 30, 2018, contribution rates are 1.18% of pay for active members, 0.88% of pay for school districts, and 1.18% of pay for the State. Retired members contribute a percentage of premium rates. The goal of the policy is to finance current year costs plus a margin for incurred but not paid plan costs.
Asset valuation method	Market value
Inflation	2.75%
Salary increases	Depends on service and ranges from 9.25% at 1 year of service to 3.25% at 20 or more years of service. Salary increase includes a 3.25% wage inflation assumption.
Investment rate of return	0%, net of OPEB plan investment expense, including inflation
Retirement age	Experience-based table of rates that are specific to the type of eligibility condition. Last updated for the June 30, 2016 actuarial valuation.
Mortality	Retirement and beneficiary annuitants: RP-2014 White collar annuitant mortality table, adjusted for TRS experience. Disabled annuitants: RP-2014 Disabled annuitant table. Pre-retirement: RP-2014 white collar table. All tables reflect future mortality improvements using projection scale MP-2014.
Healthcare cost trend rates	Actual trend used for fiscal year 2018. For fiscal years on and after 2019, trend starts at 8.00% and 9.00% for non-Medicare costs and post-Medicare costs, respectively, and gradually decreases to an ultimate trend of 4.5%. Additional trend rate of 0.36% is added to non-Medicare cost on and after 2022 to account for the Excise Tax.
